

For five generations, the Balik family has responded to the changing needs of the glass industry. Offering an unmatched selection of quality glass options, fabrication capabilities and service, we aim to deliver what the market wants. Continuous investment in precision fabrication technology keeps us at the forefront of the most complex glass projects. You can count on GGI not only for contemporary ideas and creative solutions, but also for the integrity, reliability and intimacy that comes from working with a family business.

When we say we know glass from the ground up, we mean it.

Fabricated Glass Solutions

Alice® Direct-to-Glass Printing - Digital imaging on glass using durable, ceramic frit paint—ideal for interior and exterior applications. Standard or custom artwork.

Back-Painted Glass - Standard and custom color matching options that make it easy to design wall cladding, backsplashes, and other interior applications.

Custom Fabrication Capabilities - Customization includes cut-outs, holes, notches, and edgework.

Enhance™ Glass Surface Protection - Enhance is a factory applied coating designed to protect glass surfaces from corrosion caused by excessive exposure to water, high-humidity, minerals, dirt, and other contaminants. Lifetime warranty for interior applications.

Fire-Rated - Pyran® Platinum ceramics, Pyrobel® intumescents, PyroGuard™ and wired glass for fire-protective and fire-resistive applications. [Pyran available to approved Specialty dealers.]

Glass Entrance Systems - Interior and exterior storefronts and entrance systems, including swing, sliding, stacking, and balanced doors. Complete range of hardware and finish options.

Heat-Treated Glass - Heat-strengthened or tempered glass in sizes up to 108" x 236" and thicknesses 3/16" - 3/4" to meet or exceed the toughest ASTM quality standards..

Insulating Glass - GGI streamlines the process of producing high performance, multi-functional insulating glass units—with a complete range of fabrication capabilities under one roof.

Max™ Glassboards - MAX is a cutting-edge glass dry erase board that can be fabricated to any shape, back-painted in almost any color, magnetic and non-magnetic—single or double sided. Custom artwork made easy with Alice® direct-to-glass printing.

Laminated Glass - Custom fabricated annealed and heat-treated laminated glass with a variety of PVB, SentryGlas® and acoustic interlayer options and glass types. Stock sizes available in clear, low-iron and tinted.

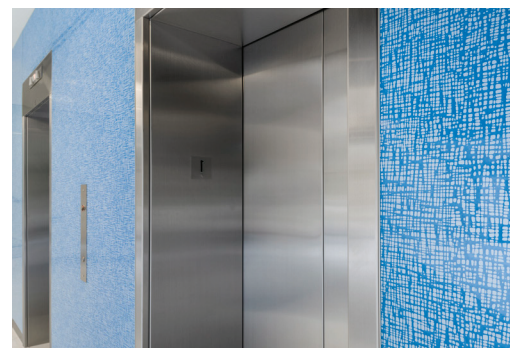

Shower Enclosures - GGI shower enclosures are highly customizable utilizing the vast array of glass types, thicknesses, textures, patterns and designs available; combined with a broad range of hardware styles and finishes.

GLASS
CAN DO

Specialty Glass

Bird Protection Glass - GGI furnishes a variety of monolithic and insulating glass types for bird friendly applications, including ORNILUX® tested and approved by the American Bird Conservancy.

Low-Iron - The broadest selection of low-iron glass, including low-iron mirror, patterned glass and satin etched for the truest color rendering. OptiWhite® and Starphire® available by request.

Mirror - A wide range of design options are available including clear, low-iron, satin etched, tinted and antique mirror.

Patterned - Over 60 patterned glass designs and textures for case delivery and custom fabrication, including the widest range of heavy glass options for interior applications.

Satin-Etched - Satin etched glass available in a range of thicknesses and glass types: single and double-sided, clear, low-iron, patterns, mirror and anti-slip flooring options.
