

# Max<sup>TM</sup> Glassboards

## Product Description

---

Inspire creativity, collaboration, and productivity with Max desktops, dividers, tabletops, walls, floors, and more. Max Glassboards can be shaped and back-painted in almost any color, pattern, image, or artwork, creating a blank canvas, creative prompt, company branding, or functional surface that accepts a wide range of markers and can be easily and completely cleaned with just a quick wipe down.

## Benefits

---

- Completely customizable
- Non-porous, solid surface
- Durable, mold-resistant, hygienic
- No special cleaning agents required
- No chalk dust residue
- Low VOC paint used to produce
- Meets ANSI Z97.1, CAN/CGSB, and CPSC 16 CFR 1201 safety glazing test requirements.

## Completely Customizable

---

- Choose from a spectacular range of standard or custom colors
- Incorporate logos, line art, four-color artwork, photography, fades, grids, gradients, patterns, and more with Alice<sup>®</sup> direct-to-glass printing
- Select clear, ultra-clear low-iron, satin-etched clear, satin-etched low-iron, or Crystal Light for a softer finish
- Single or double-sided
- Magnetize one or both sides
- Customize with cut-outs, holes, notches, hanging systems, or hardware, in most any size or shape

## Applications

---

- Classrooms
- Daycare facilities
- Hospital patient rooms
- Hotel meeting rooms
- Office and conference rooms
- Recreation areas and playrooms
- Restaurants

## Limitless Color Options

---

With custom color matching, Max Glassboards can contribute to any interior design statement. Pantone<sup>®</sup>, RAL, Benjamin Moore<sup>®</sup>, Sherwin Williams<sup>®</sup>, or a page from a magazine—the color options are limitless.

## Glass Types

---

- Clear
- Ultra-clear low-iron
- Satin-etched clear
- Satin-etched low-iron
- Crystal Light soft-finish low-iron

## Hardware & Accessories

---

- Concealed fasteners
- Exposed fasteners in a variety of finishes
- Magnets, dry-erase markers, holder, and other accessories available upon request

## Applications

---

For interior use only

## Cleaning

---

The face of the glass should be cleaned with a non-toxic glass cleaner and a non-abrasive brush, pad, or cloth. Do not use cleaning solutions that contain acid alkali or ammonia. Care should be taken to avoid pooling of liquid at the bottom edge, as this may result in the degradation of the painted surface. This can be easily accomplished by applying the cleaning solution to the cloth, and not directly to the glass surface.

## Storage and Handling

---

Max Glassboards should be stored in a dry location at all times and installed in areas that are free from moisture and humidity.

## Limited Warranty

---

Max Glassboards are produced in accordance with ASTM standards and warranted to be free from workmanship related defects for a period of ten (10) years from the date of shipment to the original purchaser provided that the materials have been stored, handled, installed and maintained according to GGI's instructions and recommendations. This information is included in this document and online at [www.generalglass.com](http://www.generalglass.com). For complete warranty, please contact GGI.
