GLAZING HARDWARE SUPPLY

Dallas Shower Hinges

DALLAS SHOWER HINGES

Glass showers can enrich your customers' lives and their property value with purpose-built personal space or intentional renovations that reflect current styles and fully embrace me-time.

ALICE® Direct-to-Glass Printing allows designers and architects to elevate everyday glass into a tailored architectural surface. By printing directly onto glass, ALICE enables precise control of pattern, tone, opacity, and scale—transforming enclosures and cladding into immersive, site-specific installations. Whether subtle and textural or bold and expressive, ALICE empowers you to integrate art, privacy, and material performance seamlessly into the built environment.

Discover our newest innovation in no-cutout-required hinges—the Dallas Hinges—engineered to simplify installation without compromising performance. With a maximum load-bearing capacity of 160 lbs., they deliver exceptional strength, durability, and smooth, quiet operation. Designed for versatility, Dallas Hinges are available in Flush Wall Mount, 90° Glass-to-Glass, and 180° Glass-to-Glass configurations, making them ideal for a wide range of shower and interior glass applications. Featuring a sleek, minimalist design and a smooth, corrosion-resistant finish, they integrate seamlessly into modern bathroom aesthetics while ensuring long-lasting performance in high-moisture environments.

Equipped with a sliding function, Dallas Hinge deliver a maximum load-bearing capacity of 160 lbs. The hinge is adjustable by 1–3 degrees, ensuring precise and reliable closed position.

Compact Shower

Introducing the next generation of compact shower solutions in the U.S.—our innovative 90° Slider. Designed for modern spaces where efficiency meets elevated design, this door opens at a 90° angle to the fixed panel and glides smoothly, eliminating the need for swing space. Its breakthrough sliding system maximizes usable floor area, improves accessibility, and delivers the sleek, contemporary look designers demand. Perfect for urban living, luxury renovations, and space-conscious layouts, the 90° Slider redefines compact showers without compromising style or performance.

Optimize every inch of your space with our 90° sliding door. Designed to open at a 90° angle to the fixed panel, it glides smoothly without the clearance needed for a traditional swing door. Perfect for tight bathrooms, compact interiors, or modern spaces where every inch counts, this door combines sleek design with effortless operation for both style and functionality.

ALICE® Direct-to-Glass Printing transforms shower enclosures into composed architectural surfaces—balancing privacy, light, and material expression.

Alice® Direct to Glass Printing

The Alice Exclusive Designs collection includes a curated selection of ready-to-print designs and patterns. Easily adjust the artwork to meet your project's scale, color and opacity.

As experts in architectural glass fabrication, we were first in the U.S. to share Alice Direct-to-Glass Printing with our customers and creative collaborators.

We offer an assortment of glass materials and coatings specified for high performance and combine them with our innovative digital printing technologies using proprietary ceramic frit inks.

Woodstock Series

Introducing Woodstock Hinges with radius corners and beveled edges, these hinges are specifically designed for heavier, more comprehensive doors. Inside the hinge, two strategically placed steel pins provide template options, catering to different mounting methods for shower door hinges. To ensure safety, it's essential to keep the steel pins in place for "Mickey Mouse" type cut-outs. For those seeking increased adjustability, simply remove the two pins.

┆ Max Door Weight: (2 Hinges) 110 lbs. ┆ Max Door Weight: (3 Hinges) 140 lbs. ┆ Max Door Width: 36" ┆ 5° Pivot Pin

AC037

Cardiff Series

Trust in the reliability and versatility of Cardiff Series Pivot Hinges. These hinges are engineered for 5/16" or 3/8" tempered safety glass. They offer a range of benefits, including the ability to bear most of the door weight for top and bottom mounts, flexibility from the wall, and the ability to provide clearance for towel bars and other fixtures. The hinge opens 360° AC2 and is compatible with the AC1 bottom hinge. It can function as Transom to Glass Mount Pivot Hinges, ensuring your doors stay secure and durable.

└ Max Door Weight: 100 lbs. └ Max Door Width: 31"

AC1
Top and Bottom Pivot Mount

Finishes Available:
Brushed Nickel, Chrome,
Matte Black

Porto Series

The Porto Series Pivot Hinges, meticulously crafted for use with 5/16" or 3/8" tempered safety glass, offer endless application possibilities. Pivot-type hinges provide numerous advantages, such as bearing the majority of the door weight at the bottom and the flexibility to be inset from the wall, giving clearance for towel bars and other projections.

└ Max Door Weight: 100 lbs. └ Max Door Width: 31"

AP1
Top and Bottom Pivot Mount
Finishes Available:
Brushed Bronze, Brushed Nickel, Brass, Chrome,

Glass Surface Protection

Enhance™ glass surface protection

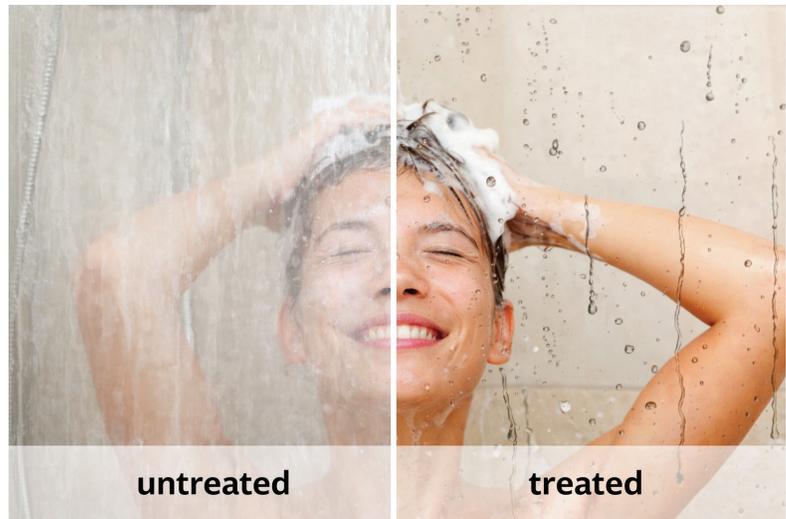

- To keep glass looking clean and clear, this permanent, durable, factory-applied coating is designed to protect glass surfaces from corrosion caused by excessive exposure to water, high-humidity, minerals, dirt and other contaminants. As a certified fabricator, we apply it glass surfaces using the EnduroShield X-Line High Speed automated coating equipment. Available on all glass types fabricated by GGI.

Pilkington OptiShower™ anti-corrosion glass

- This easy-to-clean, custom-fabricated glass retains its transparency and aesthetics, while mitigating the corrosive effects of water, heat and humidity over time. For an even clearer option, Pilkington OptiShower OW features a low-iron, extra-clear Pilkington Optiwhite™ substrate with the same advanced coating.

ShowerGuard® Coated Glasses

- Specifically formulated for shower glass, this advanced coating fuses to the surface during the manufacturing process to permanently protect the glass from the damaging effects of hard water, heat, humidity, soap residue and cleaning agents.

CRES Single Door Sliding System Kit

SLIDERS

Experience the perfect combination of style and functionality with the CRES Single Door Sliding System Kit. Its circular-shaped header and round rollers create a sleek, modern look, allowing more glass and less hardware to be showcased. The high-quality rollers ensure smooth and quiet door travel, making sliding effortless. This versatile system can accommodate 1/2" or 3/8" thick tempered safety glass (glass not included) and allows for reversible installation of the fixed and sliding panels. Choose from polished stainless steel, satin brass, or matte black finish to elevate the aesthetic of your space with the Single Door Round Bar Sliding System.

Serenity Modern One Panel Slider

Introducing our Serenity Type Modern One Panel Slider – a departure from traditional sliding shower doors. This sleek design features minimal hardware for a frameless, floating appearance. Specially engineered roller bearings ensure smooth, quiet operation when opening and closing the door. The unique roller system operates above and below the header bar, creating a seamless look. Our 180° Standard Kit is stunning and functional with one sliding and one fixed panel. Compatible with 3/8" or 5/16" thick tempered glass (glass not included). Elevate your shower experience with our innovative design.

FROM CONCEPT TO COMPLETION, WE'RE WITH YOU AT EVERY STEP.

PRESALE TEAM

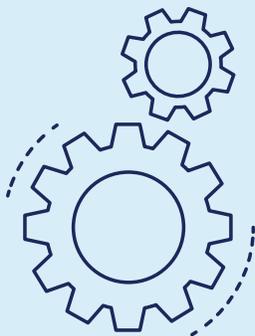

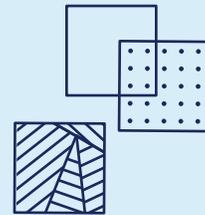

We work closely with you to simplify hardware selection and design, using our experience and strong ties with top brands like Assa Abloy, C.R. Laurence, FHC, Klein and Dorma.

ENGINEERING

Our expertise and attention to detail give you a competitive edge, ensuring top aesthetics, performance and quality on every project.

PROJECT MANAGEMENT

Our team manages complex custom builds from concept to completion, with the inventory and partners to deliver what you need, when and how you need it.

ORDER FULFILLMENT

Once your project begins, our fulfillment team provides clear, regular updates on lead times and progress every step of the way.

INSTALLATION SUPPORT

Our fully assembled doors come ready to install with pre-installed panic devices and access control hardware, ensuring quick, hassle-free installation with minimal on-site adjustments.

DISTRIBUTION

We run our own truck fleet to deliver on schedule, offering flexible options like cased goods, mixed loads and specialty glass. We deliver direct to jobsites—loose, racked or crated—and can handle time-sensitive, after-hours deliveries.
